

**PRODUCT NAME :**

UV DY 1200 BLANKET

**Description :**

From newly develop EPDM material, this DY 1200 UV Blanket is suitable for all UV sheet fed and web fed printing.

**Characteristics :**

Ideal for UV printing, highy UV solidification and ultraviolet ray resistance  
Low thickness deviation for good image reproduction.  
Great versatile propriety for packaging industry.

**Technical Specification :**

**Application :**

Presses	Sheetfed
Inks	UV Inks
Wash-up solvents	UV washer

**Surface and Mechanical Properties :**

Construction	3 ply
Polymer base	EPDM rubber compound
Type	Compressible using Microsphere technology.
Surface Roughness	0.9-1.10 um
Surface hardness	76-79° Shore A
Elongation	<0.90% at 500 N/5cm
Compressibility	12-18
Color	Red
Standard gauges	1.95mm
Thickness tolerances	+/- 0.02 mm
